

ARG45380 anti-PDGFC antibody

Package: 50 µg
Store at: -20°C

Summary

Product Description	Rabbit Polyclonal antibody recognizes PDGFC
Tested Reactivity	Virus
Tested Application	WB
Host	Rabbit
Clonality	Polyclonal
Target Name	PDGFC
Species	Virus
Immunogen	Recombinant Orf Virus PDGFC.
Conjugation	Un-conjugated
Alternate Names	PDGFC; Platelet Derived Growth Factor C; Fallotein; SCDGF; Spinal Cord-Derived Growth Factor; Platelet-Derived Growth Factor C; PDGF-C; VEGF-E; Secretory Growth Factor-Like Protein; VEGF-E; Hepatopoietin-A; Scatter factor

Application Instructions

Application table	Application	Dilution
	WB	1-15 µg/ml

Application Note * The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.

Properties

Form	Powder
Purification	Protein A purified
Buffer	PBS
Reconstitution	Water
Concentration	0.1 - 1.0 mg/ml
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.
Note	For laboratory research only, not for drug, diagnostic or other use.

Bioinformation

Gene Symbol	PDGFC
Gene Full Name	Platelet Derived Growth Factor C
Background	The protein encoded by this gene is a member of the platelet-derived growth factor family. The four members of this family are mitogenic factors for cells of mesenchymal origin and are characterized by a core motif of eight cysteines. This gene product appears to form only homodimers. It differs from the platelet-derived growth factor alpha and beta polypeptides in having an unusual N-terminal domain, the CUB domain. Alternatively spliced transcript variants have been found for this gene. [provided by RefSeq, Sep 2010]
Calculated Mw	15 kDa
